

Work prospect

- Oil & gas company
- Fast moving consumer goods (FMCG)
- Engineering, procurement, and construction (EPC)
- Petrochemical
- Bioprocess industry
- Government
- Fintech and Finance
- and a lot more!

About us

“Engineering discipline that studies the design & operation of commercial-scale chemical processes in a safe, sustainable, & profitable manner”

Established on September 1941 under the name of *Chemische Technologie* Department, Chemical Engineering became an official department on 1959 as one of the oldest higher educational department in Indonesia. Since 1996, the name officially changed into *“Chemical Engineering Program”* and strive to always contributes towards the development of education and industry for Indonesia and the world.

Student Activities

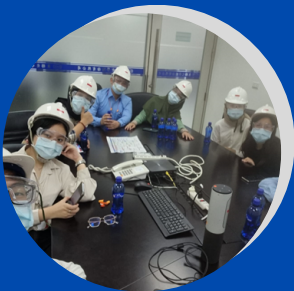

Chemical Engineering UNDERGRADUATE PROGRAM

FTITB
FAKULTAS TEKNOLOGI INDUSTRI
INSTITUT TEKNOLOGI BANDUNG

COLLABORATIVE LEARNING

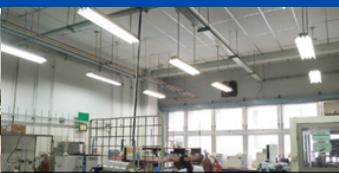

"Empower Your Learning Journey with Cutting-Edge Laboratory Facilities!"

Your education is backed by state-of-the-art laboratories equipped with the latest technology and modern facilities. Designed to enhance hands-on learning and real-world application, our labs provide an innovative environment where theory meets practice. Whether you're conducting experiments, developing projects, or exploring new ideas, our advanced equipment ensures you have the tools you need to succeed.

Experience learning at its finest — where knowledge thrives, and innovation begins.

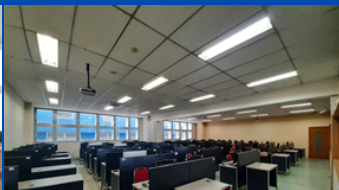

Lab. of Microbiology and Bioprocess Technology

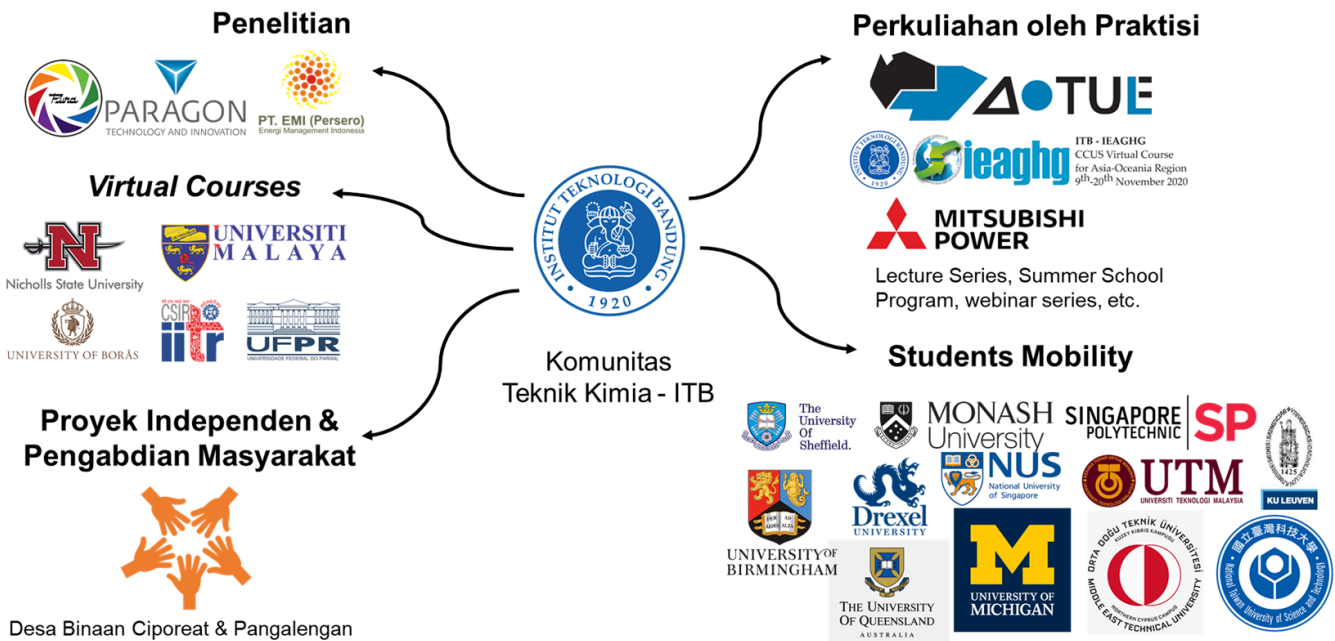

Lab. of Catalysis and Reaction Engineering

Lab. of Process Safety and Energetics Electrochemistry

Lab. of Process Simulation

OUR CURRICULUM
